### **WS80i wireless loudspeaker system**

Making its debut in the UK, Blue Aura's WS80i wireless loudspeaker system appeals to the most discerning music fan whilst fitting neatly and practically into today's lifestyles. Compatible with iPods, TVs or computers, the WS80i allows a signal to be sent from any device, be it an MP3, computer or traditional Hi-Fi to the speakers, which can be placed anywhere in the home. With the amplifier integral to the unit, there is no need for external amplification. The speakers are covered with faux leather, available in black or white with alternate colour stitching to offer a stylish and luxurious finish.
